

R12/R134a valve core remover

Reference : AC 4048

Item name R12/R134a valve core remover

Bar code 3700461410758

Introduction AC 4048, the universal bus dismantler compatible with all current air-conditioning gases. A precision tool designed for fast, safe replacement of high and low-pressure valves.

Text The AC 4048 is a bi-material pocket tool, specifically developed to meet the dimensional constraints of climatic load valves on light and commercial vehicles.

Total compatibility (Tri-Gas): Designed to handle valve cores from old (R12), standard (R134a) and new-generation (R1234yf) circuits, guaranteeing a long-lasting investment for the workshop.

Double Precision Cavity: Equipped with two separate heads to adapt perfectly to different valve core diameters (standard and large), avoiding damaging or breaking the valve's internal mechanism.

Grip-Control" ergonomics: Knurled Aluminum body or high-grip coating for precise handling, even with compressor-oil-soiled gloves.

Robust, antistatic design: materials resistant to chemical agents and extreme temperature variations when purging circuits.

Pen with Clip format: Easy to store in a pocket or charging station organizer, for immediate availability when connecting couplers.

Specifications -1 side Ø6mm depth 20mm
-1 shouldered side Ø4mm useful depth 15mm (total depth 23mm)

Warranty period 2 years
