

## Injector return control box

Reference : AC 5240BL

<b>Item name</b>	Injector return control box
<b>Bar code</b>	3700461469053
<b>Introduction</b>	Covers the majority of vehicles fitted with Bosch (excluding Opel), Denso, Delphi and Siemens Common Rail injectors. Contents detect injector flow problems.
<b>Text</b>	A) Engine runs without starting. Installing the graduated pencils allows you to diagnose : - if all levels are similar: Injectors are operating correctly. - if one level is significantly higher than the others (25%): this injector is damaged. The method is faster: - direct connection to the injector - fuel flows directly into the pencils.  B) Engine starts. We recommend using the vials. If excessive flow is observed in one of the vials, replace the injector connected to that vial.
<b>Specifications</b>	Specifications : - C1 Bosch 90° injectors - C2 VDO/Siemens 90° injectors - C3 Denso 90° injectors

- 50ml vial capacity

**Warranty period** 2 years

**Fuel type** Diesel

**Tariff code** Tariff Normal (TN)

**Product range** B-Line

**Warranty Procedure** NO
