

Air conditioning leak stop for R1234yf 30ml

Reference : CO 4070

Item name Air conditioning leak stop for R1234yf 30ml

Bar code 3700461494802

Introduction Closes micro-leaks in metal parts, hoses and seals.
Saves time on hard-to-reach leaks.

Text A product specially designed for the rapid repair of micro-leaks in air conditioning systems.
Once introduced into the system, the sealant begins to circulate until the leak is located. When it escapes, the product reacts with the air, hardens, and permanently seals the micro-leak.
Since the product contains no polymers, there is no risk of damage to circuit components and/or the air conditioning unit.

Unpressurized bottle containing no propellant: May only be used after the system has been evacuated using an a/c station.

No gas is injected: no risk of overpressure or damage to the system (unlike syringes and aerosols).

The bottle contains a liquid that is drawn in by the vacuum previously created in the system.

Product highlight Cost-effective solution

Specifications Usable 1234YF
Recommended for vehicles containing up to 350ml lubricant and 1.5kg coolant.
Vehicle must be equipped with a 1234yf low-pressure fitting.

Warranty period No warranty (consumable)

Capacity (ml) 30 ml

Capacity (l) 0.03 l

Tariff code Tariff Normal (TN)

Warranty Procedure NO

Consumable type Additive

***Public price Exl. Tax : €29**

*Applicable user fees from 01/09/2025 to 31/08/2026
