Item name	Kit réseau alu Ø16mm L.20m 3 descentes
Bar code	3700461494642
Text	The aluminum components for the pipes and technopolymer fittings make this system a secure network, designed to minimize the risk of corrosion or pipe deformation. Cost-effective thanks to its quick installation: no gluing, welding, or crimping—it uses a push-fit, locking mechanism. Highly adaptable thanks to its wide range of connectors and its compatibility with existing piping systems. The kit can be customized as desired at any time and allows for cost-effective planning at any time (no estimate required). Mounting accessories: see website.
