Text	Aluminum pipes and technopolymer fittings ensure a reliable, durable, and corrosion-resistant system. Quick installation via simple push-to-connect and locking mechanisms, without the need for adhesive, welding, or crimping. Thanks to the wide range of fittings available, the system easily adapts to the installation and allows for the integration of an existing system. Fully modular, it can be easily sized and expanded at any time to meet changing needs. Mounting accessories: see website.
