

## Remote tool for HGV induction heat-sealing

Reference : OE 0900

<b>Item name</b>	Remote tool for HGV induction heat-sealing
<b>Bar code</b>	3700461494420
<b>Introduction</b>	This tool heats a part at a precise point, making it easy to release screws, nuts, bolts, connecting rods, hubs (even rusty ones), lambda probes, ball bearings... It also makes it easy to remove stickers, glued door strips or truck wheel nuts.
<b>Text</b>	It's a real alternative to blowtorches or flame torches: its induction system enables precise, flameless heating of a (conductive) metal part, with no risk of damaging neighbouring non-conductive parts (glass, plastic, paint, etc.). What's more, the operator saves considerable time when setting up the tool.
<b>Product highlight</b>	Increased safety Time saving
